# Machine Design & Project Management

We provide design and project management services, working with our customers to design and build custom machinery that exceeds expectation.

We design and manufacture machinery using cutting edge technology and fabrication techniques.

Our project management service provides oversight from start to finish for turnkey operation.

**SOLIDWORKS**

# Hydraulic & Pneumatic

- ▶ Sales ◀
- ▶ Service ◀
- ▶ Systems ◀

We provide complete design and installation of hydraulic and pneumatic systems including maintenance, repair, and overhaul.

Our services are provided on-site or in-house based upon our client's needs.

At IHMI we offer hydraulic cylinder testing, repair, and replacement services. We can source a wide variety of cylinders or manufacture from scratch to fit the application and environment.

Other services include:

- ▶ Custom hose assemblies and crimping while you wait ◀
- ▶ Custom machining and off the shelf part replacement ◀
- ▶ Hydraulic pump testing and mobile diagnostics ◀
- ▶ Source parts and hoses for agricultural and industrial use ◀
- ▶ Piston rod rechroming and tube honing ◀

**AFTER HOURS SUPPORT AVAILABLE**

# Custom Machining & Licensed Millwrighting

Our staff includes licensed tool and die makers, machinists, and millwrights. We are able to manufacture parts using a variety of materials, from tool steel to aluminum to stainless.

Our shop is fully equipped to handle customer requests and requirements.

We are experienced providing parts and service for a variety of industries, including:

- ▶ Automotive ◀
- ▶ Agricultural ◀
- ▶ Manufacturing ◀
- ▶ Food and Beverage ◀
